

“It requires a great deal of boldness and a great deal of caution to make a great fortune, and when you have it, it requires ten times as much skill to keep it.”

Ralph Waldo Emerson

Worldwide
Company Services
Limited

Financial strength

Established in 1993, we are an independent British company specialising in on and offshore trading, international taxation and wealth protection. We operate from a Head Office based in London with representative offices across the world. Alongside our associated company Churchill & Co (a UK firm of chartered accountants, registered auditors and business advisors) we also provide the full range of finance services that are regulated by the Institute of Chartered Accountants in England and Wales.

Few individuals or companies have sufficient understanding to properly optimise their tax liability or the time to keep up with constantly changing international legislation. At Worldwide Company Services we provide a reliable, cost-effective means of maximising and maintaining your wealth.

Through our own global network of representatives and professional partners we advise private individuals and companies about how to minimise their exposure to international taxation and thereby safeguard their assets.

Our expertise lies in the appropriate use of offshore companies and trusts for personal and corporate tax planning. As demand and legislation evolve so do our skills and services.

Knowledgeable experts

Efficiency overseas.

The UK's Channel Islands and the Caribbean are the world's main Offshore Financial Centres (OFC). We have our own associated trust companies in Anguilla and St Lucia and have established working partnerships with trust and other professional companies in many jurisdictions. Together we have incorporated structures in many jurisdictions including the British Virgin Islands, Nevis, Mauritius, Uruguay, Gibraltar, Hong Kong and the Channel Islands. Our clients span the globe, coming from South Africa, Australia, North America, Western Europe and Eastern Europe.

Since every client has different circumstances we set up and incorporate an International Business Company (IBC), trust, foundation or other suitable vehicle in the most appropriate jurisdiction for them. The OFC jurisdiction is determined not only by a client's priorities and tax regime but also considers political and economic stability, language, legal systems, import and export controls, banking facilities and communication links.

We are familiar with double taxation agreements, anti-avoidance legislation and the direct and indirect taxation systems of many countries.
